BILLING SYSTEM UPDATE: NEW BILL FORMAT & ELECTRONIC OPTIONS

Beginning in October 2015, your water and/or sewer bill from Lehigh County Authority (LCA) will look a lot different, but it contains the same information you are used to seeing! An example of the new bill format is shown on the opposite page of this newsletter.

Here’s a brief review of what has changed:

- Four prior bill cycles are shown on the bill in the “Consumption History” section to show how much water you have used in the past. (If you are a sewer customer with no water meter, this section is blank.)

- A new “Special Message” section has been added to the bill so we can share information that is specific to your water / sewer system such as water quality updates or flushing schedules.

- More detailed information on the back of the bill about LCA’s payment options and collections process.

- Bill stub at the bottom of the bill should be used to show the LCA mailing address through the window in the return envelope that is enclosed (if there’s an amount due).

What hasn’t changed? Everything else!

- Your bill dates and due dates are the same.
- The rates we use to calculate your bill are the same.
- Contacting LCA with questions remains the same.
